

The Transcover Double Cover

Sheeting System

Description

The Double-Cover is for sheeting large arctic tippers, walking floors and ejector trailers. This system flips inwards from both sides towards the centre of the load and for the first time can operate with a solid vinyl sheet.

The Double-Cover is hydraulically driven and operated safely from ground level.

A Double-Cover is easily installed on new vehicles or retrofits within 3 days and comes with a 12 month warranty.

- **Hydraulically Operated**
- **Fast and Efficient Sheeting from Ground Level**
- **Easy to Use**
- **12 Month Warranty***
- **Deals with Heaped Loads**
- **No Winding - Fully Automatic**
- **Can be used with a Solid Sheet!**

*WARRANTY: 1 year warranty on all parts, 3-months on workmanship for tarps.
Subject to Terms and Conditions. Delivery Charges Apply

Bedliners

- Loads release quickly avoiding dangerous high stage tipping
- Non porous - prevents freezing and sticking to liner surface
- Liners are non corrosive
- HMW liners are extremely economical
 - almost half the price of heavy duty UHMW.
- Heavy Duty UHMW liners are three times more abrasive-resistant than steel and aluminium and are compatible for hauling hot asphalt up to 177°C (350°F)
- Available packages: floor, sidewall, tailgate and front wall. Each liner package includes custom fabrication for installation by the customer
